                                                                                                                                                                                                                                                                                                                 Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                 Score

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

outer surface protein C precursor - Borrelia afzelii (strain PLj7)
C:Species: Borrelia afzelii
A;Variety: strain PLj7
C:Date: 06-Dec-1996 #sequence_revision 14-Feb-1997 #text_change 26-May-2000
C:Accession: S69922; S72675
R:Jauris-Heipke, S:; Liegl, G.; Preac-Mursic, V.; Roessler, D.; Schwab, E.; S
J. Clin. Microbiol. 33, 1860-1866, 1995
A;Title: Molecular analysis of genes encoding outer surface protein C (OspC)
A;Reference number: I40047; MUID:95395018
A;Accession: S69922
A; Molecule type: DNA
A; Residues: 1-212 < JAU>
                                                                              A; Status: nucleic acid sequence not shown
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              C; Superfamily: Lyme disease spirochete surface
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                R;Livey, I.; Gibbs, C.P.; Schuster, R.; Dorner, F.
